

Twin City Foods Introduces Bold Harvest: A Fresh Take on Frozen Vegetables

At Twin City Foods, we've built our reputation on delivering trusted, high-quality frozen vegetables that meet the highest standards of freshness, flavor and consistency. Now, we're taking that legacy further with the launch of [Bold Harvest](#)—a new brand that brings together bold flavors and an unwavering commitment to quality.

Elevating the Frozen Food Experience

Bold Harvest is more than just a new product line, it's a reimagining of what frozen vegetables can be. By combining premium-quality ingredients with modern-preparation methods—like fire-roasting techniques—we've created a lineup of flavorful, chef-inspired frozen vegetables that bring a modern, restaurant-quality experience to kitchens.

At Twin City Foods, we're delivering a new standard of quality, service, and innovation." said Dale Goyer, President of Twin City Foods. "With Bold Harvest, we're developing a new benchmark of quality, innovation, and bold flavor—giving consumers an exciting new way to enjoy vegetables."

A Brand Built on Trust, Innovation, and Approachability

At Twin City Foods, trust and integrity are at the core of everything we do. Bold Harvest reflects that commitment by delivering consistent, high-quality products that customers can count on. We're always looking ahead, staying at the forefront of industry innovation to bring fresh ideas and bold solutions to the table.

And while we take our products seriously, we believe food should be approachable and fun—which is why Bold Harvest is designed for every kitchen and every chef.

At Twin City Foods, we've spent decades setting the standard for high-quality frozen vegetables.

With Bold Harvest, we're not just launching a brand, we're redefining what frozen vegetables can be.

Bold Harvest is set to launch and begin operations later this year, bringing bold flavors and premium-quality frozen vegetables to market. As we prepare for this exciting debut, we invite you to stay tuned for updates, product announcements, and behind-the-scenes looks at what's to come.
